FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

hi Jada my Computer broke down yesterday i dont know if you received this comment

thank you  
joey dee

Hi Jada Mr.D'Alessandro here :

there is one more comment you can file for me and Olga For Rule RM-9242.

thank you very much

Dear Senators,Congressman,and Lady,s,Chairman Kennard,Commissioner's:

LPFM RADIO RULE RM -9242

Dear Senators,Congressman,and Lady,s,Chairman Kennard,Commissioner's:

Question are you a Millionaire Like the NAB and Radio Conglomerates,if so you can own a bunch of radio stations,good stuff huh.

'This is Olga,the Blacks,and Minority's:'

Current FCC regulations mandate a minimum broadcast power of 100 watts and require such a high cost of entry so that only the rich

and well endowed can have a voice. Micropower broadcasting is helping to restore grassroots democracy, bringing back the concept of

open and free civic discourse among all citizens. Further, it is a direct challenge to a broadcast system based entirely on wealth.

As opposed to the hundreds of thousand dollars required under the current FCC structure to even think about starting an FM

broadcast station, a micropower FM broadcast station can be put on the air for a cost ranging from \$1000-\$2000. An affordable

amount for any community desiring to have a voice.
